The screenshot shows the Naukri job portal interface. At the top, there's a navigation bar with 'naukri' logo, 'Jobs' (3), 'Companies', 'Services' (1), a search bar containing 'javascript developer', 'naukri 360', and a notification bell (5). Below the navigation bar, the main content area displays '1 - 20 of 100583 Javascript Developer Jobs' with a link 'Send me jobs like these' and a 'Sort by: Recommended' dropdown. On the left, there's a sidebar with 'All Filters' and 'Work mode' section containing four options: 'Work from office (95095)', 'Remote (2973)', 'Hybrid (2513)', and 'Temp. WFH due to... (2)'. The main job listing shows a 'JavaScript Developer' position at 'Prakhar Software' with a 3.4 star rating and 58 reviews. The job details include '2-5 Yrs' experience, '₹ Not disclosed' salary, and 'New Delhi' location. The required education is 'Bachelors degree in Computer Science, Software Engineering, or related fie...'. The skills listed are 'Computer science', 'Front end', 'Version control', 'GIT', 'Coding', and 'MySQL'. The job was posted '12 Days Ago' and has a 'Save' button. On the right, there's a 'TECH mahindra' advertisement for 'Java Full Stack Developer/React' with an 'APPLY NOW' button.
